SLIMLINE/FRONTLINE

Our Slimline/Frontline Shelving Systems are the essence of many years of experience and success. This flexible product concept has evolved over the years and the modular structure and the large number of standard components ensure ideal room utilization and rational accommodation of all relevant functions. In addition the flexibility of the system allows a variety of individual solutions which our design teams bring to life for the individual library.

You will find all our standard products in this overview. For additional inspiration we invite you to visit our website where you can find project inspiration from our latest projects around the world.

The Slimline/Frontline shelving systems are shown in many creative configurations and our broad portfolio of library furniture provides endless possibilities. Please contact our professional sales teams for inspiration.

WOOD FROM SUSTAINABLE FORESTRY

We are committed to increasing the share of sustainable raw wooden material in our products and thereby support sustainable forestry – for a better world.

Governments and local authorities are specifying the supply of legal and responsibly sourced wood in their procurement policies.

We have invested in a Chain-of-Custody Multi-site certificate (FSC-C 144988), issued by FSC®, which documents, that we can offer wood from sustainable forestry. FSC (Forest Stewardship Council) is an international labelling scheme, that documents that FSC labelled products originate from sustainable forestry.

Working with certified suppliers, we can now offer our Frontline shelving system as fully FSC Mix certified (noted in this document with FSC).

WHAT IS SUSTAINABLE FORESTRY?

According to the FSC, forests, managed according to their principles and criteria, mean fair conditions for workers, respect for indigenous communities and local populations as well as strict environmental controls.

The FSC label guarantees that the trees that are harvested are replaced or allowed to regenerate naturally.

All the wood is tracked from the forest to the store. Every link between the forest and the consumer is certified to make it clearly identifiable which wood is from sustainable forestry and which is not.

TECHNICAL SPECIFICATIONS

GENERAL SPECIFICATIONS

DIMENSIONS

Dimensions of complete bays in available modules and heights can be found in each catalogue section which include complete configurations. See index page for overview.

MAXIMUM LOAD

Steel top shelf without backedge - max. load of 25 kg

Steel shelf with backedge - max. load of 80 kg

Wooden top shelf without backedge - particleboard - max. load of 25 kg

Wooden shelf with/without backedge - block board - max. load of 80 kg

Steel browser with pull-out frame - max. load of 40 kg

MOBILE SHELVING UNITS/WHEEL STANDS AND CASTORS

Only double-sided shelving units with a max. height of 152 cm and maximum 3 bays can be mounted with castors. Castors are available with or without brakes. Max. load of 90 kg per castor.

STABILITY

All panels are provided with adjustable feet that can be adjusted even when the system is loaded. Single-sided shelving is supplied with wall securement.

ROUNDED EDGES

All storage units and brackets have rounded edges.

BROWSERS

It is important to remember the following, when installing browsers in a shelving system:

- Browsers without tubes are meant for low medias with a maximum height of 20 cm, meaning they are not suited for e.g. picture books, as they may tip over the edge. If you wish to use store/display tall medias in browsers, then it is recommended to use single browsers with tubes, 20 cm in height and to place the books as far back as possible.
- The panel must minimally be the same depth as the browser, meaning that a 30 cm deep browser must only be installed on a 30 or 40 cm deep panel and a 40 cm deep browser on a 40 cm deep panel.
- We recommend that all shelving systems with browsers are either fixed to the floor or wall.
- Ensure that children do not play/crawl/hang on the shelving system.
- The maximum weight for each pull-out browser is 45 kg.

ASSEMBLY

All wooden shelving units come knocked-down. Assembly guidelines can be found on our website.

TECHNICAL SPECIFICATIONS

STEEL COMPONENTS

STEEL COMPONENTS

are powder coated with standard polyester based powders that secures high UV resistance. Powders comply with EN 45545 (fire protection - similar to DIN 4201). Thickness of the coating is 60-80 µm.

The powder used includes:

- no azo dyes that can release a leaving carcinogenic amine component
- no triglycidylisocyanurate (TGIC)
- no heavy steel-containing pigments such as lead and cadmium
- no volatiles

Antibacterial equipping of surfaces upon request.

STEEL METAL FRAMES

are made of 30 x 20 x 1.5 mm steel tubes. The metal frame is easy to assemble between the panels.

STEEL BRACKETS

are made of 1.4 mm sheet steel.

STEEL SHELVES/BROWSERS/CABINETS/PULL-OUT SHELVES

are made of 0.9 mm sheet steel. The flat steel shelves have a 25 mm high front edge. Flat steel shelves can be mounted in a sloping position by changing brackets.

TECHNICAL SPECIFICATIONS

WOODEN COMPONENTS

DENSITY

Particle board has a density of 600-700 kg/m³

Block board has a density of 602 kg/m³ (+/- 2 %)

MDF has a density of 700 kg/m³ (+/- 5-7 %)

VENEERED WOODEN COMPONENTS

are mainly lacquered with UV-lacquer. See Design Options for veneer specifications.

VENEERED PANELS

are made of 22 mm particle board and are veneered with 0.6 mm veneer. All edges on the panels have a 2 mm veneer edge. The panels have two holes in the bottom for adjustable feet.

VENEERED DISPLAY END PANELS

are made of 22 mm MDF and are veneered with 0.6 mm veneer. All edges on Frontline panels have a 2 mm veneer edge. Slimline panels have vertical edges with a 32 mm solid wooden edge and horizontal edges with a 2 mm veneer edge. The panels have two holes in the bottom for adjustable feet.

VENEERED END PANELS FOR FRONTLINE SQUARE

are made of 22 mm MDF and are veneered with 0.6 mm veneer. All edges have a 2 mm veneer edge.

VENEERED BACK PANELS

are made of 16 mm particle board and are veneered with 0.6 mm veneer. The horizontal edges have a 2 mm veneer edge. The vertical edges are not banded, as they are not exposed after assembly of the back panel.

VENEERED SHELVES

are made of 22 mm block board and are veneered with 0.6 mm veneer. The front and back edges have a 2 mm veneer edge.

VENEERED TOP SHELVES

are made of 22 mm particleboard and are veneered with 0.6 mm veneer. The front and back edges have a 2 mm veneer edge.

VENEERED CORNER SHELVES

are made of 22 mm particleboard and are veneered with 0.6 mm veneer. The straight edges have a 2 mm veneer edge and the front has a 1 mm wooden edge strip.

VENEERED PLINTHS

are made of 19 mm particleboard and are veneered with 0.6 mm veneer on the front. The top edge have a 2 mm veneer edge.

PAINTED WOODEN COMPONENTS

are made of MDF (medium density fibre board) which is painted with acid lacquer. Standard components have gloss 20 - 30. See Design Options for colour specifications.

PAINTED PANELS

are made of 22 mm MDF. The panels have a wooden based edge on the lower edge to strengthen the end panel and have two holes in the bottom for adjustable feet.

PAINTED DISPLAY END PANELS

are made of 22 mm MDF. The panels have a wooden based edge on the lower edge to strengthen the end panel and have two holes in the bottom for adjustable feet.

PAINTED END PANELS FOR FRONTLINE SQUARE

are made of 22 mm MDF.

TECHNICAL SPECIFICATIONS

WOODEN COMPONENTS

PAINTED BACK PANELS

are made of 16 mm MDF and are painted on all sides and edges.

PAINTED SHELVES

are made of 22 mm blockboard with 3 mm MDF.

PAINTED TOP SHELVES

are made of 22 mm MDF.

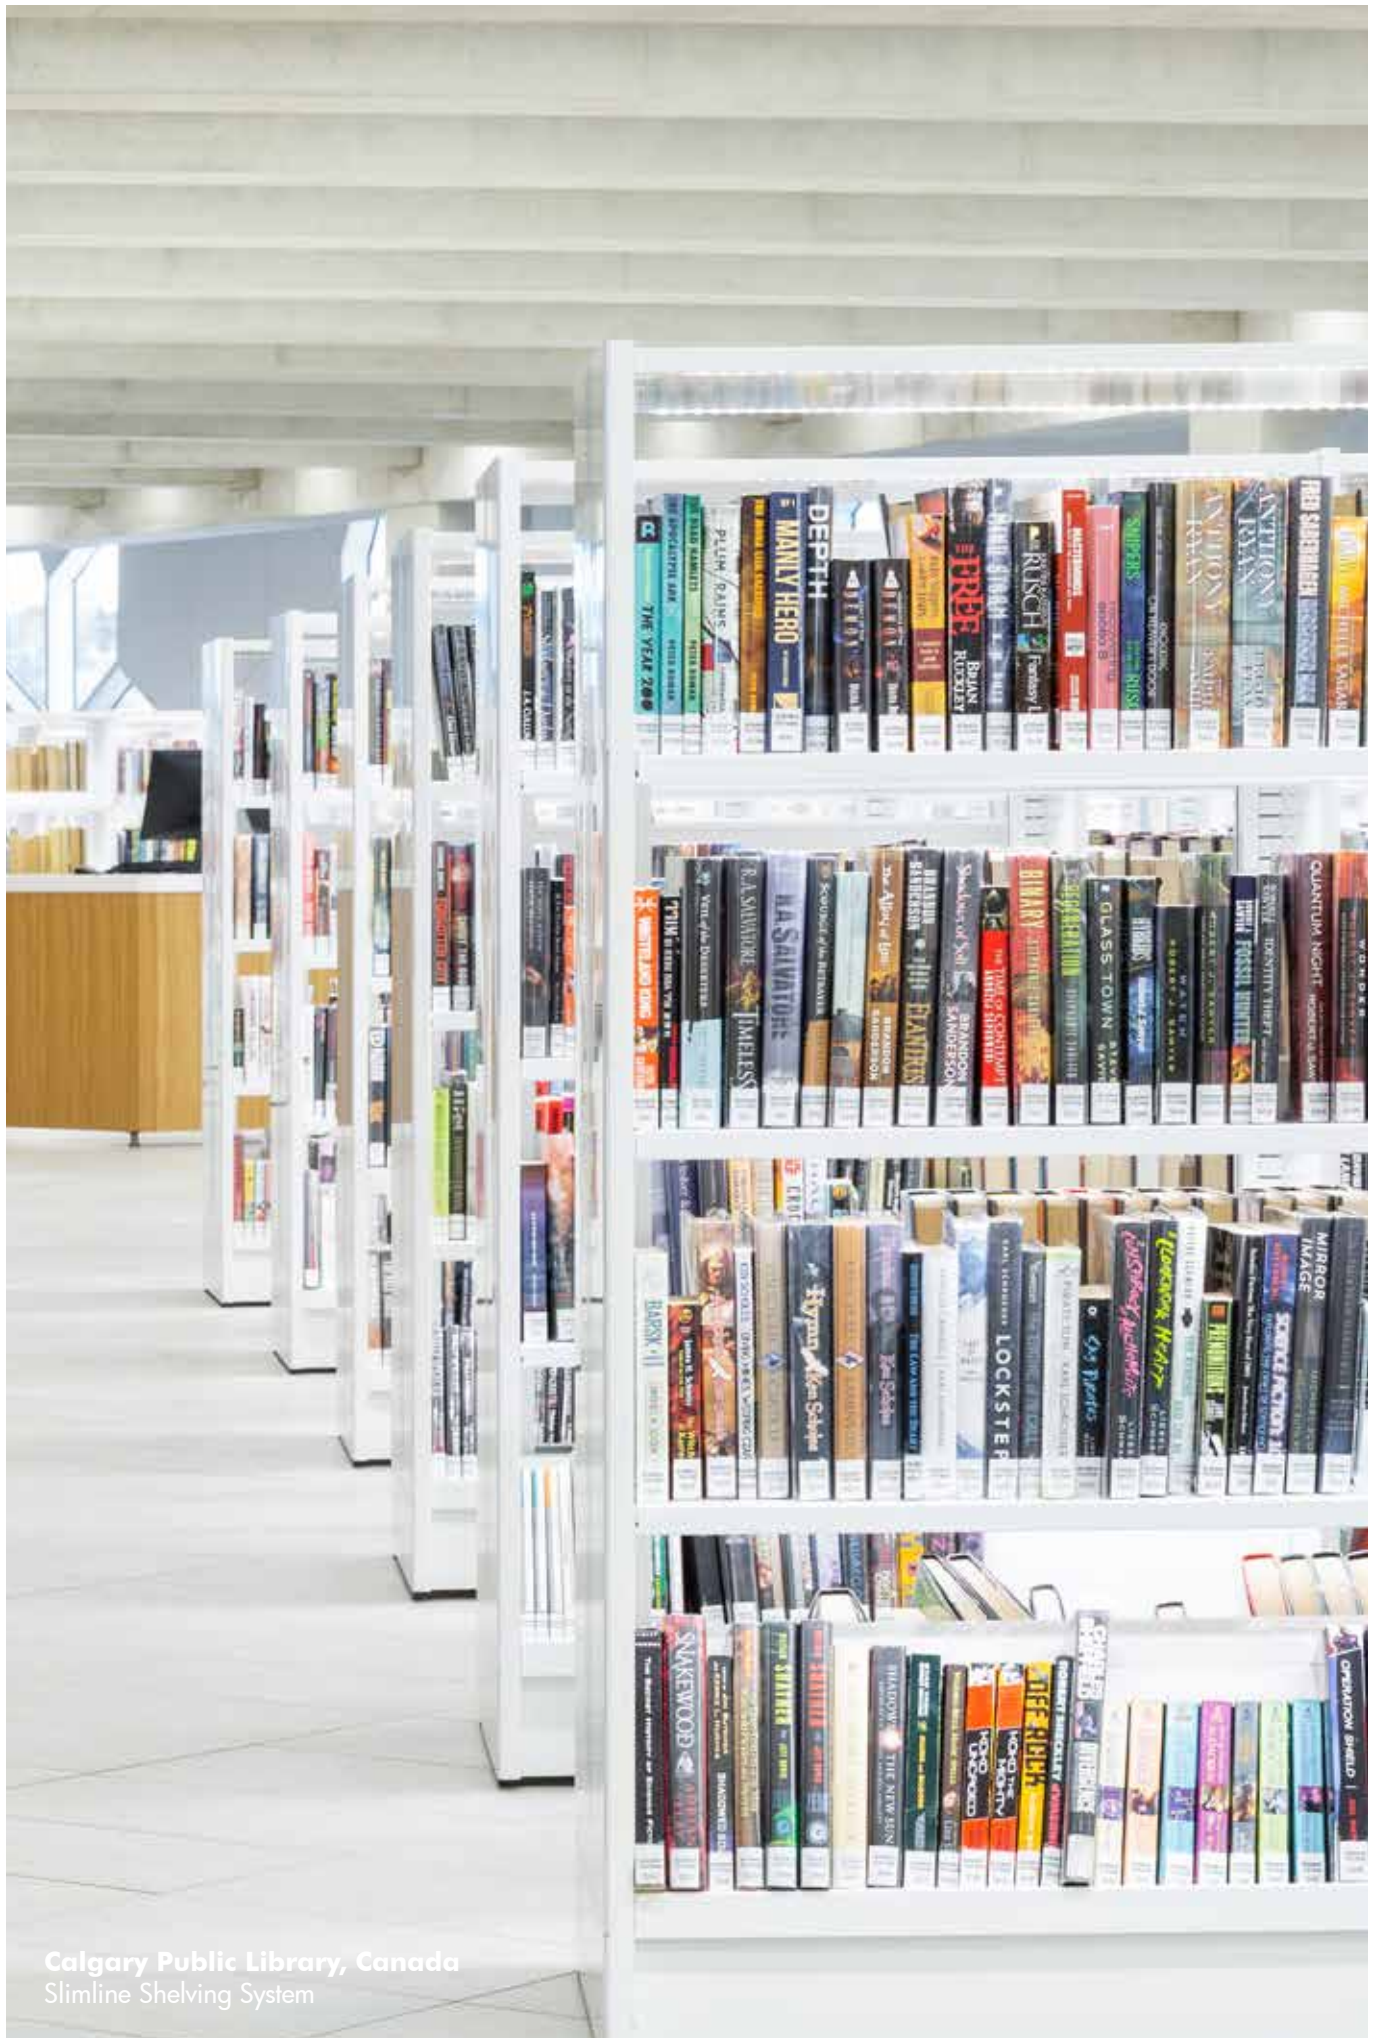

PAINTED PLINTHS

are made of 19 mm MDF.

MELAMINE COATED WOODEN COMPONENTS

MELAMINE BACK PANELS

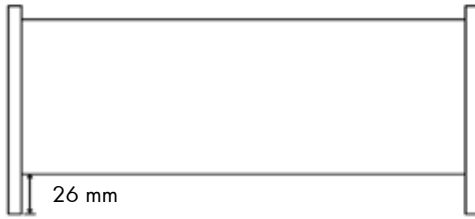

are made of 16 mm particleboard. The horizontal edges are banded with a 4 mm flat edging of ABS. The vertical edges are not banded, as they are not exposed after assembly of the back panel.

Calgary Public Library, Canada
Slimline Shelving System

SLIMLINE SHELVING SYSTEM

The following pages will show basic configurations of the Slimline Shelving System.

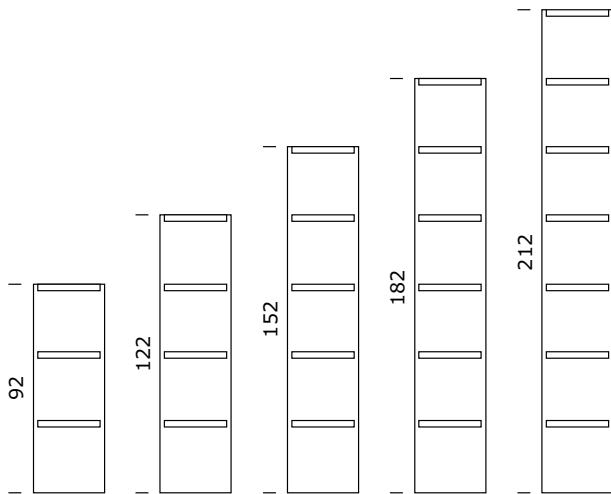

Slimline comes with a 4 mm flat front edge of solid wood. The distance between the front edge of the end panel and the front edge of the shelf is 26 mm.

Slimline configurations are delivered as standard in light steamed beech veneer, no. 55 or birch veneer, no. 69. They can also be delivered in painted MDF in any NCS or RAL colour upon request (see Design Options pages 7-9).

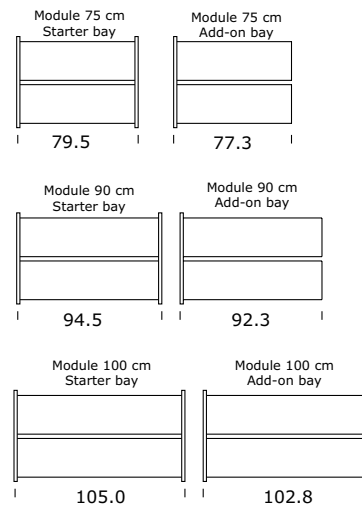

HEIGHTS

Slimline shelving comes in 5 heights; 92, 122, 152, 182 and 212 cm. Heights include adjustable feet (max. 2 cm). The shelves are adjustable in 2.5 cm increments.

WIDTHS

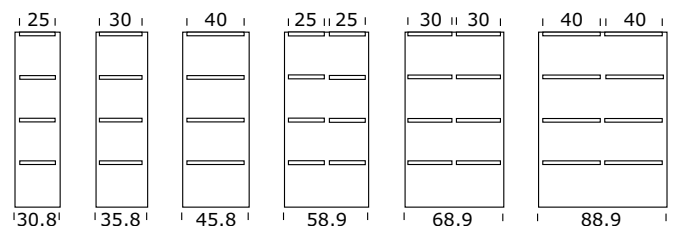

The bays are available in 75, 90 and 100 cm modules and as starter and add-on bays. A starter bay has two outside panels while an add-on bay has one intermediate panel.

DEPTHS

The panels come in 6 depths:

- 30.8 cm for 25 cm deep shelves
- 35.8 cm for 30 cm deep shelves
- 45.8 cm for 40 cm deep shelves
- 58.9 cm for 2 x 25 cm deep shelves
- 68.9 cm for 2 x 30 cm deep shelves
- 88.9 cm for 2 x 40 cm deep shelves

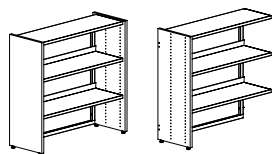

SLIMLINE SHELVING SYSTEM

SINGLE-SIDED - WITH SHELVES

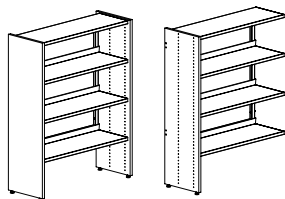

Complete shelving system with panels, metal frame, steel shelves with acrylic backedge, steel top shelf without backedge, brackets, fittings and wall securement. Number of shelves are calculated for optimal shelf spacing for fiction.

Frontline Shelving

FRONTLINE SHELVING SYSTEM (FSC)

The following pages will show 3 basic configurations of the Frontline Shelving System with either 22 or 38 mm thick panels:
 Frontline with 22 mm panels and no shelves.
 Frontline with 22 mm panels and x pcs. of steel shelves.
 Frontline with 38 mm panels, 38 mm top and bottom shelf and x pcs. of steel shelves.

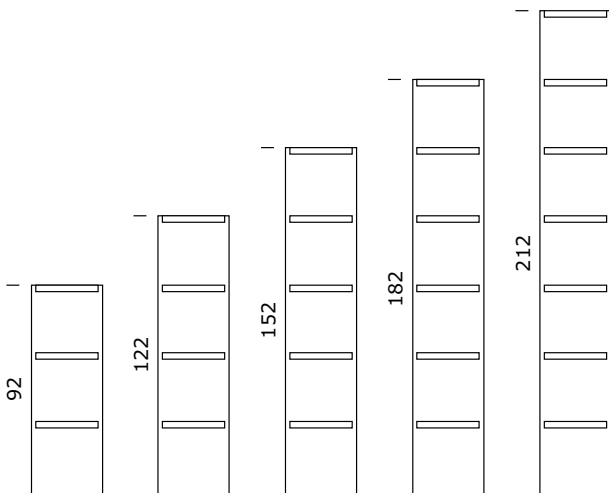

The Frontline end panel has a 4 mm flat front edge of solid wood. The distance between the front edge of the end panel and the front edge of the shelf is 5 mm.

Standard Frontline configurations are delivered in light steamed beech veneer no. 55 and birch veneer no. 69. They can also be delivered in painted MDF in any NCS or RAL colour upon request (see Design Options page 7-9).

HEIGHTS

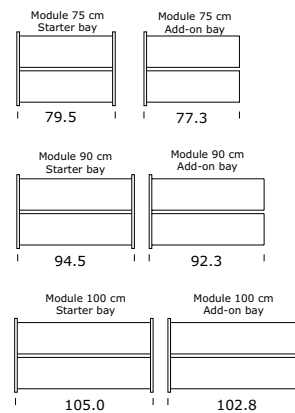

Frontline 22 shelving is available in 5 heights; 92, 122, 152, 182 and 212 cm and Frontline 38 is available in 4 heights; 122, 152, 182 and 212 cm. Heights include adjustable feet (max. 2 cm). The shelves are adjustable in 2.5 cm increments.

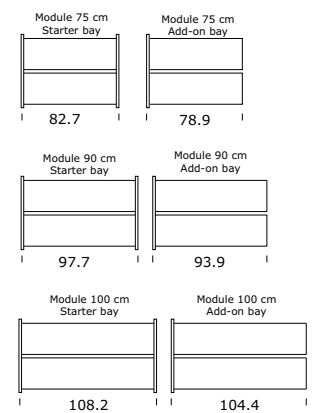

WIDTHS

The bays are available in 75, 90 and 100 cm modules and as starter and add-on bays. A starter bay has two outside panels while an add-on bay has one intermediate panel.

Frontline 22

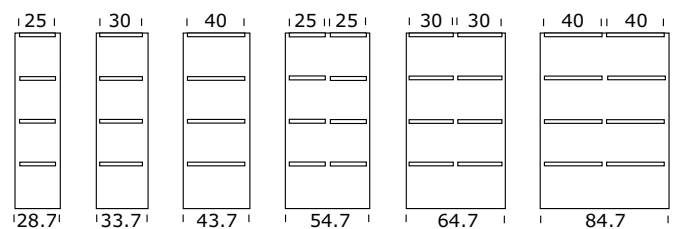

Frontline 38

DEPTHS

The panels are available in 6 depths:
 28.7 cm for 25 cm deep shelves
 33.7 cm for 30 cm deep shelves
 43.7 cm for 40 cm deep shelves
 54.7 cm for 2 x 25 cm deep shelves
 64.7 cm for 2 x 30 cm deep shelves
 84.7 cm for 2 x 40 cm deep shelves

 TIDNINGAR

Fitja Public Library, Sweden
Frontline Square - shelving & display

FRONTLINE SQUARE (FSC)

The following pages will show basic configurations of Frontline Square - shelving and display.

Frontline Square can be used in different environments for display, storage, exhibition and more. The top plate which is also available in laminate can also serve as a worktable, display or a play area.

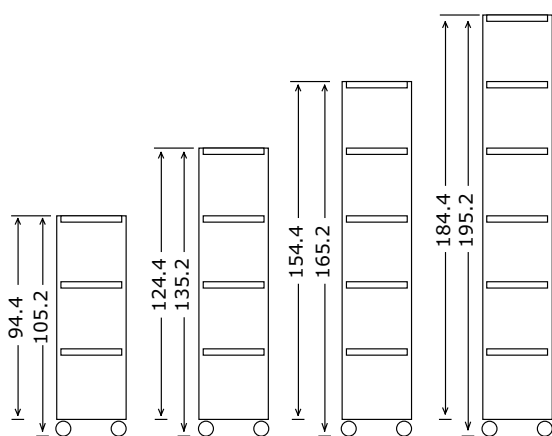

Configurations are available both with and without shelves. All standard models are equipped with 8 castors, so you can move the unit to the position you want. The panels are ideal for graphics and signage which can emphasize a theme, a classification or general information. This combined with colour can create the atmosphere you want to tempt your visitors to borrow books or just to enjoy their stay.

Frontline Square configurations are delivered as standard in MDF in any NCS or RAL colour, light steamed beech veneer no. 55 and birch veneer no. 69 (see Design Options page 7-9).

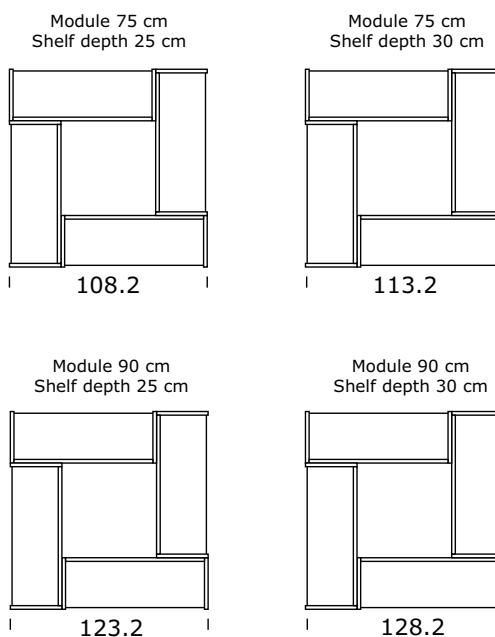

HEIGHTS

The shelving system comes in 4 heights (with castors Ø8 cm); 92 (105.2), 122 (135.2), 152 (165.2) and 182 (195.2) cm. The shelves are adjustable in 2.5 cm increments.

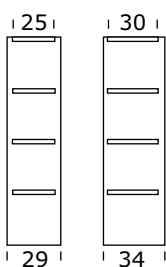

WIDTHS

The shelving system comes with two shelf widths; 75 and 90 cm. The total width of the unit depends on your choice of both shelf width and shelf depth; 108.2, 113.2, 123.2 and 128.2 cm.

DEPTHS

The panels come in 2 depths;
29 cm for 25 cm deep shelves
34 cm for 30 cm deep shelves

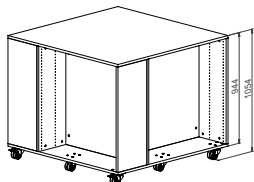

FRONTLINE SQUARE (FSC)

CONFIGURATIONS WITHOUT SHELVES - VENEER

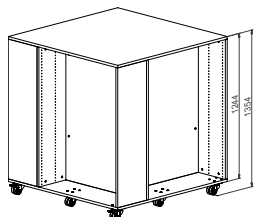

Square shelving with end panels, back panels, top and bottom plate and fittings. Add shelves and functions of your choice, see from page 56. There are 8 castors in total (2 with brake). The maximum load is 600 kg. Available in veneer, painted or painted with laminated top.

Dokk1 Public Library, Århus, Denmark
Ordrup Square

ORDRUP SQUARE

The following pages will show basic configurations of Ordrup Square.

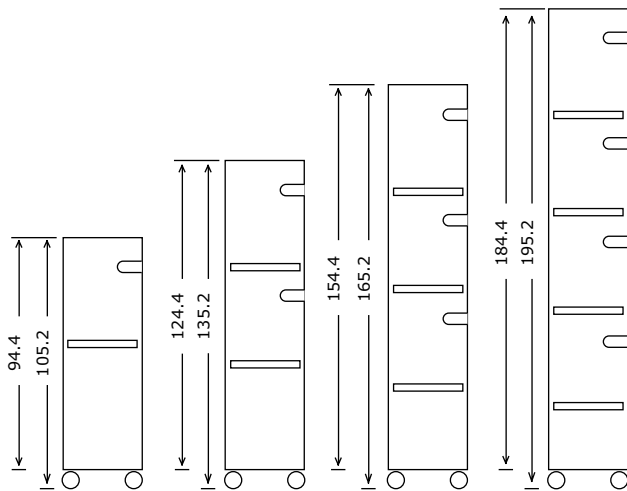

Ordrup Square is a combined magazine display and storage unit on castors. It is based on Slimline upright panels with end panels and cabinet doors with acrylic display. Behind the cabinet doors with acrylic display are compartments providing A4 vertical storage boxes for older versions of the magazines. The end panel comes with a 4 mm flat front edge of solid wood. The top plate can also serve as a display or play area, depending on the height of the furniture.

All standard models are equipped with 8 castors, so you can move the unit to the position you want. The end panels are ideal for graphics and signage which can emphasize a theme, a classification or general information.

Ordrup Square configurations are delivered as standard in MDF in any NCS or RAL colour, light steamed beech veneer no. 55 and birch veneer no. 69 (see Design Options page 7-9).

HEIGHTS

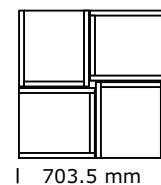

The shelving system comes in 4 heights (with castors Ø7.5 cm); 92 (105.2), 122 (135.2), 152 (165.2) and 182 (195.2) cm.

WIDTHS

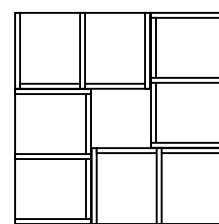

The shelving system comes with 3 widths; 1, 2 or 3 columns. The total width of the unit depends on the amount of columns.

1 column

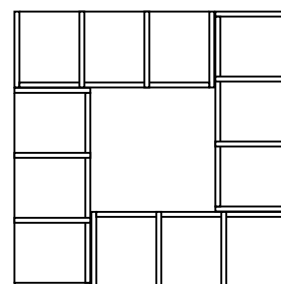

703.5 mm

2 columns

1027.5 mm

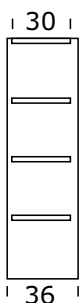

3 columns

1351.5 mm

DEPTHS

The depth of the Ordrup Square is 36 cm.

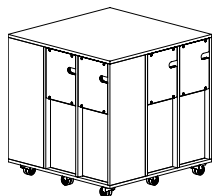

ORDRUP SQUARE

CONFIGURATIONS - VENEER

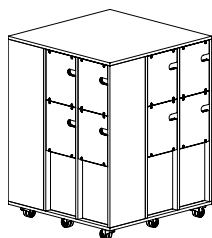

Complete square shelving with end panels, full back, top and bottom plate, doors with acrylic display and cabinet protection pads, shelves and fittings. There are 8 castors in total (2 with brake). The maximum load is 600 kg.

Slimline shelving system

WOODEN SHELVING

CHECK LIST

When constructing your own shelving, there are many factors to be taken into consideration and most importantly, you must remember to order all parts. Below you will find a check list of components you need to consider when constructing your own wooden shelving.

PANELS

Before constructing your shelving system you must know the height and depth of your finished shelving. You must then choose which end panel (the main component of your shelving) you would like – Slimline or Frontline - see from page 48. For double-sided shelving you also have the option of choosing an end panel bay for Slimline or Frontline - see page 20 and 34.

BACK PANELLING

To support the shelving you must choose between either a steel back frame or a back panel. Steel back frame is standard in wooden shelving configurations. See from page 52.

COMPONENTS - PLINTHS & CASTORS

Extra components to complete the function and design of your shelving. See page 55.

SHELVES & BRACKETS

There are some variables to consider when choosing shelves: vertical or sloping, wood or steel, and which type of top shelf should complete the shelving. Remember to order brackets, when not included. See from page 56.

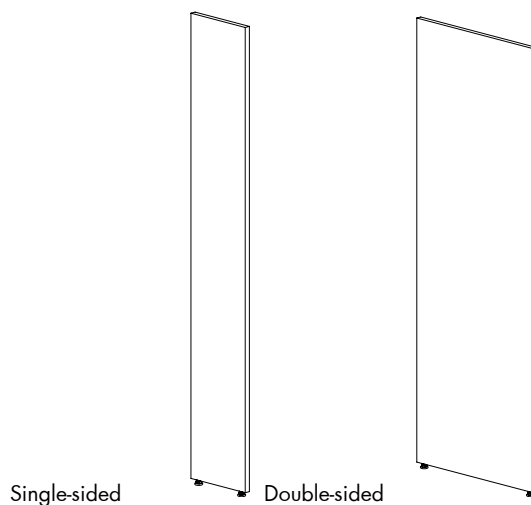

FUNCTIONS

A variety of possibilities to create the exact shelving you wish. Exchange shelving for one of the many options: browsers, cabinets, work stations or multimedia storage. See from page 66.

FUNCTIONS

Add multiple functionalities to your wooden shelving system! The wooden shelving systems provides a framework for building your own personalized shelving system that fits the requirements of your library and target group. This can be done by replacing shelves with functional components.

Choose one or more of the following function components to personalise and accommodate your own requirements into the shelving system:

Book supports

Browsers

Multimedia storage

Magazine display and storage

Cabinets and doors

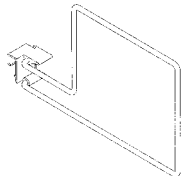

Workstations

Signage

Backedge book support for steel shelf with steel backedge

Chromed steel, Ø6 mm, with a nylon glider. The back edge book supports come in 2 models; "standard" supports books on the left hand side of the book support, while "laterally" supports books on the right hand side.

The Book Big LED lighting armature can be fitted on wooden top shelves and can be mounted over 1, 2 and 3 bays by use of connect fittings. Continuous runs also require connect fitting.

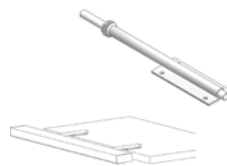

The armature is CE-approved and available in white and steel as standard. For other colours, please ask customer service.

Armature

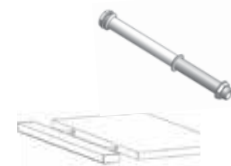

For 2 bearing arms incl. light tube and louvre. Armature housing in aluminium.

Bearing arms Standard

To be mounted on top shelf

Bearing arms Front edge

To be mounted on frontedge of predrilled top shelf/top plate (special product)

End covers

Connect fitting

LIGHTING

BOOK BIG LIGHTING

Below you will find a list of products needed when ordering lighting for 1, 2 or 3 bays. For 4 or more bays, you must use a combination of the armatures for 1, 2 or 3 bays by connecting the armatures with a connect fitting. Eg. for 10 bays, you can either use 5 x 2 bays (with 4 connect fittings) or 3 x 3 bays and 1 x 1 bay (with 3 connect fittings).

1 bay
